PROFILE

Ruby on Rails Developer. Deep interest in SaaS and passionate about business improvement that has a real influence on people's life.

For the past 6 years, I've experienced Marketing and Relationship Development in Japan, and Production Management in The UK and Colombia. I've been focusing on solving the problems and meeting the needs of clients as well as team members. Therefore, I've developed the ability to **collaborate individually** to work in a team and **build firm relationships** with diverse people.

I place a high value on **respect to people** and **learning independently** in my life.
