## PROFILE

Ruby on Rails Developer. Deep interest in SaaS and passionate about business improvement that has a real influence on people's life.

For the past 6 years, I've engaged in Marketing and Relationship Development in Japan, and Production Management in The UK and Colombia. I've been focusing on solving the problems and meeting the needs of stakeholders as well as team members. I've gained many achievements and developed the ability to collaborate individually to work in a team and build firm relationships with diverse people.

I place a high value on **Respect to People** and **Learning Independently** in my life.

## EXPERIENCE
