PROFILE

Frontend & Ruby on Rails Developer. Deep interest in SaaS and passionate about business improvement that has a real influence on people's life.

My background came from outside of the tech field. For the past 6 years, I have engaged in Marketing and Relationship Development in Japan, and Production Management in the UK and Colombia. This journey has always been shaping my personality and growing my confidence to gain precious achievements individually. Now, I'm strongly competent in **Self Management** to overcome my personal issues and **Emotional Awareness** to empathise for people to solve their problems that are relevant to gaining great organisational success in a team.

Of the motto in my life, I place a high value on **Respect** to people and **Proactivity** and **Responsibility** for my own achievements.
